

JADEVER

JWI-700D Weighing Indicator

JWI-700D Weighing Indicator

Your best choice for long-life battery operation

Layout

- ① Large LCD display with green backlight
- ② High-impact durable ABS housing
- ③ Large button
- ④ Adjustable direction

Features

- ① Up to 1/30,000 resolution
- ② Power saving design with auto-shut off function. Without backlight 3D-size batteries can last for up to 2000 hours (adopting 1000ohm load cell); 500 hours (adopting 350ohm load cell)
- ③ Supports up to four 350ohm / 1000ohm analog load cells
- ④ Adjustable capacities, resolutions and parameters
- ⑤ Low battery indication
- ⑥ Ideal for applications in production, packaging, warehouse, inventory, shipping and receiving areas or any other use

Functions

- ① **Check weighing:** This function automatically monitors the product weight for maximum or minimum weight allowance you preset. Indicator lights give you an instant read out for "HI" "LO" or "OK". This feature is especially convenient for packaging.
- ② **Counting:** This handy function automatically counts the number of items for you
- ③ **Gross and net weight display:** quickly and easily display the gross or net weight with one-touch operation
- ④ **Accumulation:** 99 pieces, displays the latest 10 accumulation events in details
- ⑤ **Tare:** Deduct the container weight

Specifications

Analog section

Input sensitivity	0.2uV/DIV
Input voltage range	-2mV to 20mV
Load cell excitation	3 D-size dry batteries
System linearity	0.007% of full capacity
Input impedance	10M ohm or more
A/D conversion mode	Δ - Σ
A/D internal resolution	700,000 count
A/D conversion speed	10 times/second
External display resolution	15,000 count

General section

Resolution	1/30,000
Weighing unit	pcs / g / kg
Display	6digits, 30mm digit height, LCD display with green LED backlight
Dimension (mm)	274×170×117
Net Weight	1.064kg
Operating Temp	-5~ 40℃
Power Supply	3 D-size dry batteries (4.5V) ; Optional 6V/300mA adaptor
Certification	CE
